Parc d'Innovation Strasbourg

Founded in 1983 by the Eurometropolis of Strasbourg, the Strasbourg Innovation Park is a **hub dedicated to higher education, high-tech activities, and future-oriented industries**. The Innovation Park offers **tailor-made support** to provide a comprehensive range of real estate and land adapted to companies' needs.

The site features several business centers and **3 bioparks fully dedicated to innovative companies in biology and chemistry**, with their **7,500 sq.m equipped with laboratories**. Over **60 hectares** remain available in the Innovation Park, with serviced plots ranging from **5,000 square meters to 10 hectares**.
